By entering, the participant gives permission to the Sponsor to contact the participant regarding the Sponsor’s products and services, whether or not the participant is chosen as the winner. Each participant shall be entitled to make one (1) entry into the Scientific Challenge only. In the event that the Sponsor

deems a participant to have made multiple applications to enter or to have acted in bad faith with respect to the Scientific Challenge, the participant shall be excluded from the Scientific Challenge and consequently ineligible to win the prize, as defined below.

Selection of Recipients and Notifications

Two (2) winners will be selected from all qualified applications by a panel of the Sponsor's scientists, who will choose the application that, in the sole discretion of the Sponsor, best makes use of the prize to demonstrate the power of the ScaleBio Single Cell DNA Methylation service. The decision of this panel will be final and binding and shall not be subject to review or appeal by any participant or by any third party. The Sponsor will attempt to notify selected winners by email within approximately five (5) business days after selection. If the selected winners have not responded to email inquiries within three (3) days, the Sponsor will attempt to contact the winner by telephone. If the winner cannot be reached by telephone within forty-eight (48) hours of first telephone attempt to notify such winner, the prize may be forfeited and an alternate winner may be selected, based on the criteria set forth above, at the Sponsor's discretion. The odds of winning depend on the number of eligible entries received.

Prize Description and Consumer Disclosure

Winners will receive ScaleBio's Single Cell DNA Methylation service to run up to 4 samples or up to 18,000 processed cells, including library preparation, sequencing to approximately 1 million raw paired end reads per cell, and data analysis using the single cell DNA methylation pipeline, per winner.
